

Dear Calvary Family:

In my previous update on our headmaster search, I indicated we were nearing completion of Phase I (preliminary interviews) and actively transitioning to Phase II. I am pleased to report that Phase I is complete and we are also nearing the end of Phase II. Phase II involves the video conference interviews of our semi-finalists and selecting our group of final headmaster candidates. Our selection of finalist candidates will occur in mid-September.

As a reminder, the Search Committee and CEP will host each finalist candidate and family members for an on-site visit. Prior to the visits, all finalists will be subject to an extensive background check. This background check includes any visible social media profiles. The Search Committee will also ensure the requisite personal and professional references were appropriately vetted.

After deciding on the finalist candidates, the Search Committee will coordinate an announcement with Mr. Smith to introduce the candidates to our community. Parents will have an opportunity to meet each candidate in a group setting. The timing of these events will be determined based on availability and travel schedules.

We again thank you for your patience with and faith in our Committee during this process.

Sincerely,

Greg Farris

Chair, Head of School Search Committee
